

IS YOUR TIME VALUABLE? IS IT WORTH MORE THAN JUST \$1 OR \$2 PER DAY?

Because, that's all you need to let ShiftPlanning release your staff from the hours spent juggling staff scheduling and payroll needs. Scheduling for restaurants can be quite complex given that most organizations have a variety of positions that must be filled on multiple shifts while considering job training, vacation requests, staff skills, and other constraints on top of shift coverage. Making restaurant scheduling even more challenging, is the fact that staffing must give the utmost consideration to customer service while allocating payroll dollars in an efficient and accurate manner.

With its easy-to-use yet extremely powerful scheduling, time clock, and staff communication features, ShiftPlanning can both help streamline daily operations and help your staff prepare for special events. With free setup and a 30-day free trial, you have nothing to lose except your old, costly scheduling process. ShiftPlanning is the top choice workforce software of restaurants in countries across the globe.

Shiftplanning combines several operations critical functions into one intuitive, easy-to-use, and affordable web-based online application:

EMPLOYEE SCHEDULING

Schedule smarter by working with the most current and accurate data. Know who is available, who is on overtime, who is on vacation and more. Use auto-scheduling to save time on staff assignment.

6	7	8
8 am - 5 pm Danijel Zec	8 am - 4 pm Gary	8 am - 4 pm Gary
2 pm - 10 am AM, AR, BH, EO, G	9 am - 5 pm	8 am - 4 pm Mathew W.
	9 am - 12 pm Alicia M.	9 am - 5 pm
	2 pm - 10 am	2 pm - 10 am

TIME CLOCKING

Get rid of the need for expensive stand-alone equipment, stream-line the process of time sheet management, and take your employee work data directly to payroll. Using innovative technology ShiftPlanning can still provide the same security features you're used to to ensure on-location time clocking and even biometrics.

The screenshot shows a web interface for 'timeclock'. It has a navigation bar with 'Dashboard', 'Time Clock', and 'Schedule'. The main content area shows an 'Overview' for 'Aug 30, 2011 - 8:56pm'. There are buttons for 'Add Clock Time', 'Upload Time Sheet', and 'Clock Out'. A status indicator shows 'Clock in at 2:15pm'.

The screenshot shows a web interface for 'reports'. It has a navigation bar with 'Dashboard', 'Time Clock', and 'Schedule'. The main content area shows 'All Reports' with options for 'Schedule Summary' and 'Hours Scheduled'. A 'Schedule Summary' section is expanded, showing 'View the shifts & number of hours scheduled per emplo...'. An 'Hours Scheduled' section is also visible, showing 'View the number of hours scheduled for employees dur...'.

PAYROLL & REPORTING

Pulling reports and exporting data to your favorite payroll application is as easy as a click of the mouse. Data can be used from our shift confirmation and online time clocking system as well as from your own custom export/reports.

STAFF COMMUNICATION

At the heart of ShiftPlanning is a powerful platform for staff management and communication. Share Files, Send Messages, Post Events, Set Availability and tons more!

The screenshot shows a list of messages from users. The first message is from Ryan Fyfe, dated 2 months ago, with the subject 'Welcome to our new online scheduling application'. The text says: 'ShiftPlanning allows us to bring our scheduling online to a central location, open up communication streamline our business by lowering costs and scheduling related conflicts. Please let us know any feedback that you have.' The second message is from Wendy T., dated 2 months ago, with the text: 'I love how it sends me notifications of my upcoming shifts!'.

Getting started with ShiftPlanning is easy and we offer a free setup, plus the software integrates with the apps you and your staff already use like:

EXCEL: We provide both import/export options to Excel in native .xls, and .csv format. This ensures data portability between offline/online.

E-MAIL: Simply sign-in to your web-based e-mail and import your contacts with the click of a button. Shift-Planning is also full email notification enabled allowing several actions to happen directly from your inbox.

FACEBOOK: Our Facebook integration allows both for single-sign on using Facebook as well as data synchronization and employee import.

GOOGLE APPS: ShiftPlanning is an installable from the Google Apps marketplace. Setting up is easy and fast, and means that we do all the heavy lifting in creating and setting up your account. Just login with your Google Apps account!

IPHONE, ANDROID & MORE: ShiftPlanning is a web-based application meaning that you have access to our application anywhere you have an internet connection -including your mobile phone. We have specialized versions of our app for mobile and smart phones

ShiftPlanning helps promote improved communication and team work leading to increased productivity for your facility.

EASE OF USE: Employees can access schedules any time and any place, and administrators can easily manage the full range of scheduling, time-clock, and payroll options. Secure access to the system is provided over the web or mobile using a simple yet powerful browser-based interface.

ECONOMICAL: We offer affordable monthly subscription plans that can be cancelled at any time. While some companies' scheduling tools require a huge initial investment, our system has no set-up fees. We offer the first 30 days free with no credit card requirement! *Take advantage of our yearly plan and save up to 25%*

ENGAGEMENT: Employees can be captivated by our creative approaches to scheduling through collaborative communication, our innovative biometric features, and integration with their favorite apps like facebook, sms, and online calendars.

EMPOWERMENT: Our software is letting Managers cut scheduling time down by up to 90%! Our software is so easy-to-use, that employees can handle the bulk of scheduling related functions quickly & accurately.

Let us improve your team's scheduling needs with our software's efficiency, timeliness, and low cost
