

## IS YOUR TIME VALUABLE? IS IT WORTH MORE THAN JUST \$1 OR \$2 PER DAY?

Because, that's all you need to let ShiftPlanning release you from the hours spent juggling your staff scheduling and payroll needs. With free setup and a 30-day free trial, you have nothing to lose except your old, costly scheduling process. ShiftPlanning is the top choice workforce software of franchises, small businesses, and large entities in countries across the globe.

*Shiftplanning combines several business critical functions into one intuitive, easy-to-use, and affordable web-based online application:*

## EMPLOYEE SCHEDULING

Schedule smarter by working with the most current and accurate data. Know who is available, who is on overtime, who are your top employees, who is on vacation and more.

## TIME CLOCKING

Get rid of the need for expensive stand-alone equipment, stream-line the process of time sheet management, and take your employee work data directly to payroll. Using innovative technology ShiftPlanning can still provide the same security features you're used to to ensure on-location time clocking and even biometrics.

## PAYROLL & REPORTING

Pulling reports and exporting data to your favorite payroll application is as easy as a click of the mouse. Data can be used from our shift confirmation and online time clocking system as well as from your own custom export/reports.

**Welcome to our new online scheduling application**

ShiftPlanning allows us to bring our scheduling online to a central location, open up communication, streamline our business by lowering costs and scheduling related conflicts.

Please let us know any feedback that you have.

 **Wendy T.** » 2 months ago

I love how it sends me notifications of my upcoming shifts!

## STAFF COMMUNICATION

At the heart of ShiftPlanning is a powerful platform for staff management and communication. Share Files, Send Messages, Post Events, Set Availability and tons more!

## MULTI-LOCATION

ShiftPlanning's flexible yet powerful workforce management solutions give multi-location entities the tools they need to ensure smooth scheduling and time & attendance operations across each facility.

### **Adaptability:**

ShiftPlanning has always had a customer-driven product roadmap. Our engineering team is always working to enhance the platform and we're open to feature requests, especially those that are specific to multi-location needs. Because of the dedication of our engineering team, updates to the product are rolled-out on a regular basis and we have industry leading turnaround times on customer requested entities.

### **White Label:**

Current workforce management options with their out-dated interfaces and bulky presences often leave brands vulnerable to negative staff adoption. ShiftPlanning's white label product solves this problem by seamlessly integrating it's easy-to-use and current UI with a controlled brand identity. White-label users have the option to have a customized login page as well as the option to setup ShiftPlanning on their own domain.

### **Security:**

We are committed not only to providing our clients with unrivaled support but also with security and reliability they can trust. ShiftPlanning is built on top of the latest web technologies and hosted in a state of the art data center in Fremont, California to make sure that we can scale to deliver the speed and up-time that our subscribers deserve. We believe in complete transparency and our uptime can be checked at anytime at [status.shiftplanning.com](http://status.shiftplanning.com). We have taken extensive measures at all levels to ensure that user data is safe within our system including: SSL security, encrypted user passwords, automatic timeout, hourly data backup and Admin control of employee settings. Lastly, to give admins complete peace of mind, account data can be downloaded at anytime. We recently been named a trusted app by TRUSTe's online privacy service.

### **Revenue Share:**

The platform has a generous referral program that rewards corporate entities for advocating ShiftPlanning to their locations. Each time a location becomes a ShiftPlanning subscriber, referrers will collect a generous 20% commission for the lifetime of the account with the option to collect 10% and incentivize each location with a 10% opt-in discount.

### **Integration:**

ShiftPlanning already integrates with the apps that your staff use making adoption easier and providing greater continuity to your organization's processes. View our current integration options below:

**Excel:** We provide both import/export options to Excel in native .xls, and .csv format. This ensures data portability between offline/online.

**E-mail:** Simply sign-in to your web-based e-mail and import your contacts with the click of a button. ShiftPlanning is also full email notification enabled allowing several actions to happen directly from your inbox.

**Facebook:** Our Facebook integration allows both for single-sign on using Facebook as well as data synchronization and employee import.

**Google Apps:** ShiftPlanning is an installable from the Google Apps marketplace. Setting up is easy and fast, and means that we do all the heavy lifting in creating and setting up your account. Just login with your Google Apps account!

**iPhone, Android & More:** ShiftPlanning is a web-based application meaning that you have access to our application anywhere you have an internet connection -including your mobile phone. We have specialized versions of our app for mobile and smart phones.

**Data API:** Our API opens up a greater level of integration capability for the ShiftPlanning platform and is a very simple interface to all of the data that clients have within their account. It works for not only retrieving data, and files, but also for sending it to us.

## SUPPORT

ShiftPlanning's industry-leading support team is available around the clock to assist clients with getting acclimated with the software as well as solve any software related issues. All support comes at no extra charge to subscription, so clients don't have to worry about their inquiries going unnoticed because they've purchased the wrong 'tier'.

- **Implementation:**

ShiftPlanning allows full access during free trial giving organizations ample time to get setup. Input of data into the system can be done by the client or by the ShiftPlanning team (free of charge). During the implementation process, support is available to help create an information architecture and identify the data needed to implement the software with best practices.

- **24/7 Tech Support:**

ShiftPlanning has a support team that is available around the clock to answer questions, troubleshoot technical issues, or simply explain product features. ShiftPlanning's support team is always live (not automated) and fully trained in all aspects of our application.

- **Training:**

Training materials are available on our site as well as in-app through a support portal. Additionally, live training sessions via screensharing are available upon request. Moreover, the ShiftPlanning team is open to working with the in-house training teams of our clients to develop materials and/or training courses.

*ShiftPlanning helps promote improved communication and team work leading to increased productivity for your store.*

**EASE OF USE:** Employees can access schedules any time and any place, and administrators can easily manage the full range of scheduling, time-clock, and payroll options. Secure access to the system is provided over the web or mobile using a simple yet powerful browser-based interface.

**ENGAGEMENT:** Employees can be captivated by our creative approaches to scheduling through collaborative communication, our innovative biometric features, and integration with their favorite apps like facebook, sms, and online calendars.

**ECONOMICAL:** We offer affordable monthly subscription plans that can be cancelled at any time. While some companies' scheduling tools require a huge initial investment, our system has no set-up fees. We offer the first 30 days free with no credit card requirement! \*Take advantage of our yearly plan and save up to 25%\*

**EMPOWERMENT:** Our software is letting Managers cut scheduling time down by up to 90%! Our software is so easy-to-use, that employees can handle the bulk of scheduling related functions quickly & accurately.

*By automating employee-manager communications, reducing scheduling errors, managing the processes around collecting availability, open shift, shift trades and vacation management, ShiftPlanning relieves managers of valuable time that can be spent on mission critical tasks. Given the affordability of the platform, companies are seeing 5x return and more on their investment in ShiftPlanning.*

*Let us improve your team's scheduling needs with our software's efficiency, timeliness, and low cost*
