

IS YOUR TIME VALUABLE? IS IT WORTH MORE THAN JUST \$1 OR \$2 PER DAY?

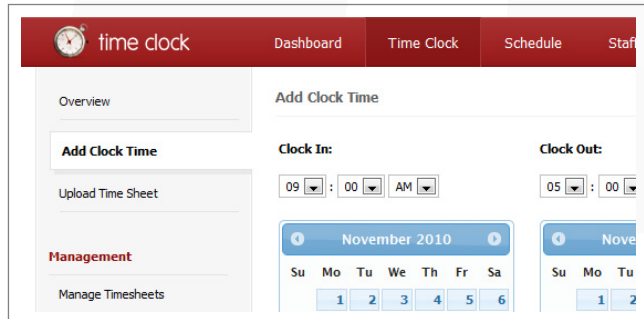

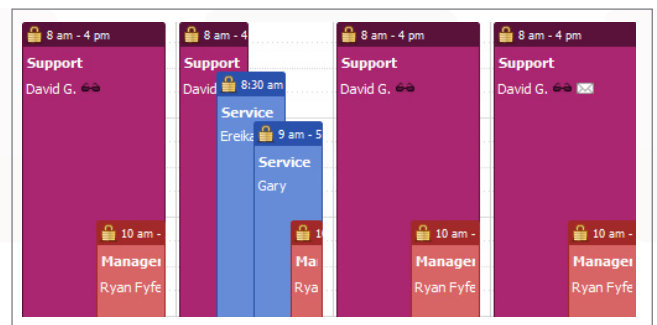

Because, that's all you need to let ShiftPlanning release you from the hours spent juggling your staff scheduling and payroll needs. With free setup and a 30-day free trial, you have nothing to lose except your old, costly scheduling process. ShiftPlanning is the top choice workforce software of franchises, small businesses, and large organizations in over 60 countries across the globe.

Shiftplanning combines several business critical functions into one intuitive, easy-to-use, and affordable web-based online application:

EMPLOYEE SCHEDULING

Schedule smarter by working with the most current and accurate data. Know who is available, who is on overtime, who are your top employees, who is on vacation and more.

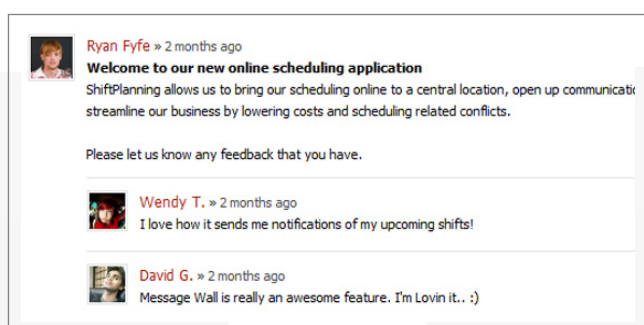

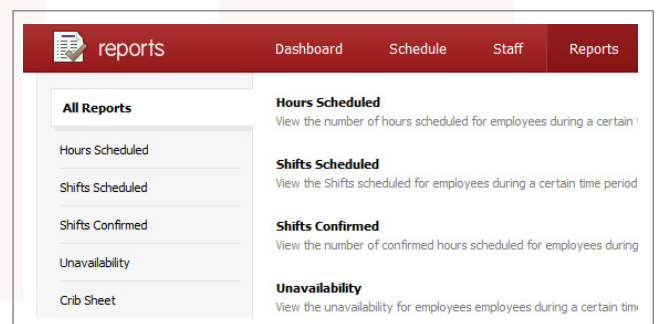

TIME CLOCKING

Get rid of the need for expensive stand-alone equipment, stream-line the process of time sheet management, and take your employee work data directly to payroll. Using innovative technology ShiftPlanning can still provide the same security features you're used to to ensure on-location time clocking and even biometrics.

PAYROLL & REPORTING

Pulling reports and exporting data to your favorite payroll application is as easy as a click of the mouse. Data can be used from our shift confirmation and online time clocking system as well as from your own custom export/reports.

STAFF COMMUNICATION

At the heart of ShiftPlanning is a powerful platform for staff management and communication. Share Files, Send Messages, Post Events, Set Availability and tons more!

Getting started with ShiftPlanning is easy and we offer a free setup, plus the software integrates with the apps you already use like:

EXCEL: We provide both import/export options to Excel in native .xls, and .csv format. This ensures data portability between offline/online.

E-MAIL: Simply sign-in to your web-based e-mail and import your contacts with the click of a button. Shift-Planning is also full email notification enabled allowing several actions to happen directly from your inbox.

FACEBOOK: Our Facebook integration allows both for single-sign on using Facebook as well as data synchronization and employee import.

GOOGLE APPS: ShiftPlanning is an installable from the Google Apps marketplace. Setting up is easy and fast, and means that we do all the heavy lifting in creating and setting up your account. Just login with your Google Apps account!

IPHONE, ANDROID & MORE: ShiftPlanning is a web-based application meaning that you have access to our application anywhere you have an internet connection -including your mobile phone. We have specialized versions of our app for mobile and smart phones

ShiftPlanning helps promote improved communication and team work leading to increased productivity and ultimately profits for your business:

EASE OF USE: Employees can access schedules any time and any place, and administrators can easily manage the full range of scheduling, time-clock, and payroll options. Secure access to the system is provided over the web or mobile using a simple yet powerful browser-based interface.

ECONOMICAL: We offer affordable monthly subscription plans that can be cancelled at any time. While some companies' scheduling tools require a huge initial investment, our system has no set-up fees. We offer the first 30 days free with no credit card requirement! *Take advantage of our yearly plan and save up to 25%*

ENGAGEMENT: Employees can be captivated by our creative approaches to scheduling through collaborative communication, our innovative biometric features, and integration with their favorite apps like facebook, sms, and online calendars.

EMPOWERMENT: Our software is letting Managers cut scheduling time down by up to 90%! Our software is so easy-to-use, that employees can handle the bulk of scheduling related functions quickly & accurately.

Let us improve your team's scheduling needs with our software's efficiency, timeliness, and low cost
